Our Success Story

The Journey of 6 Months

25 Sep 2019

26 Mar 2020

5300

50,000

How did I managed to achieve 50k subscribers for my client ?

This journey started from 25th sept. 2019, Dhakad concept is the company which was my first project as a freelancer.

They trusted me without having any face-to-face meeting and handover the project to me.

The time when I started the project the channel had 5300 subscribers, first of all I made a new strategy and made required changes.

So we started with targeting co-operative bank exams classes on the channel.

With the help of skilled teachers and the whole team we achieved 30k subscribers on 16th Dec. 2019, and that's not all during that time we achieved 20k subscribers just in the span of 15 days.

And with that our co-operative bank's every subject's videos were in YouTube's top 5 search result.

After that considering Rajasthan High Court we started giving lectures and received a very good response, not just that Rajasthan's every subjects videos are still ranking on top 5 search results as of today, there are some videos of High court which has some 50k-1lac views.
